

## Effective Signage

Digital signage displays are ideal for exhibiting or advertising your products or services in the best light with stunning, high-quality large screen images. Our digital signage solutions deliver your message with visually captivating images; designed for 24/7 operation and feature a 3-year manufacturer's product warranty.

Imagine announcing sales promotions, computer-generated information or communicating a multimedia experience with still images, video, and dynamic content, **all at the point of purchase.**

- HD 1080p content capabilities
- Commercial grade for 24/7 run times
- Variety of sizes & options from 10" - 300"

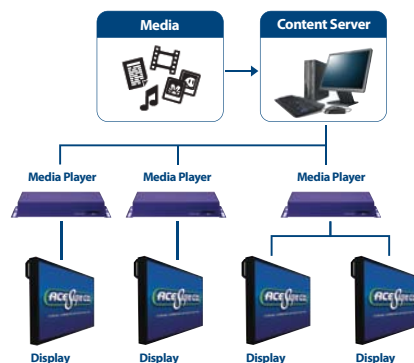

## Creating Content

Make the most out of your new digital display with our professional content design services. It's not always easy to create top quality content for your sign. However, our design staff here at Ace knows what it takes to create something both visually exciting and effective. Just give us your ideas and we'll give you a professional ad to be proud of.

- colorful imagery
- bold text
- dynamic movement
- effective advertising
- value beyond compare

## Content Management

No need for an IT department – it is easy to upload, manage or change content. When you utilize our content hosting services we provide you with all the training, information and software you need to keep your display fresh and up to date.

## Installation

Not only do we offer the digital displays, but we can handle all your installation and mounting needs. With a wide variety of mounting options available we can always help you mount your display where you want it.
