ACE Sign CO.

## vehicle graphics

Turn your vehicle into your most valuable marketing tool! Turn heads with high quality images right on your vehicle! Our expert designers, along with professional vinyl applicators, can transform your vehicle into an eye-catching advertisement or simply give it a fresh new look. We have a variety of applications that fit your needs. From full wraps to striping and everything in between, let Ace Sign Company make your vehicle one that is worth being seen.

## Full and Partial Wraps

Pages 3-4

## Cut Vinyl Graphics

Pages 5-6

## Full Wraps

**From roof to chassis and everything in between.** Our full wrap graphics truly cover every body surface of your vehicle. Using top quality printable vinyl, your graphics are digitally printed and then applied directly to your vehicle. This vinyl can flex and adhere to highly contoured surfaces, allowing for maximum coverage with minimal seams.

## Partial Wraps

**Let your vehicle be the background for your most successful ad campaign.** Partial wrap graphics use the same materials and techniques as full wraps, but allow the surface of your vehicle to act as a back drop for your design. Partial wraps can help you cut down on your cost while preserving an eye-catching design.

**Vinyl graphics that are a cut above the rest.** Cut vinyl graphics can be used to create door lettering, window lettering, or custom designs. Using high quality vinyls, these graphics are machine cut and applied to your vehicle. Cut vinyl is not only perfect for lettering and striping, but also for creative and attention getting designs.

**Lettering.**

**Striping.**

**and much more.**
