

# Awnings

2009

**Awnings provide more than just shelter.**

They add elegance and can even compliment the exterior architecture of a building while drawing the attention of potential customers. Our awnings are custom built to your specifications by our experienced staff of fabricators.

Let our design team show you how we can use lighting and high-quality materials to provide a brilliant, eye catching display that will make your business impossible to ignore - day or night.

This catalog is designed to educate you on what we have to offer while letting you see what we have created for other customers. Please contact us with any questions you might have.

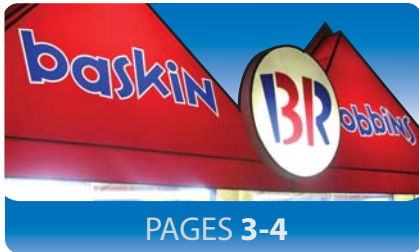

**When deciding on the right awning for your business, you should consider all of the factors below.** Throughout this catalog, you will see this same chart for each of our awning materials. The answers to these questions should give you an idea of what the best option is for you.

- Durability** | When mother nature unleashes her wrath, which awning can I rely on the most?
- Maintainence** | I have enough to deal with already. How often do I have to clean or repair my awning?
- Design** | I want a unique shaped awning that is different than the rest. Will this material work for that?
- Lighting** | How well is my awning going to show up at night? What are my lighting options?
- Color** | I want an exact color match. How many color options do I have?
- Application** | Alright, give it to me straight. Which awning is perfect for my application?

**Shed light onto your business with a back-lit Awning.** Our internally illuminated Awnings are equipped with a translucent, flexible, and durable fabric that allows your awning to be seen day or night. With the addition of translucent vinyl graphics, it can be used as valuable identification for your business. If you are looking to illuminate your business's image and use your awning as a form of day or night identification, back-lit awnings are the way to go.

## Material Information

- Tear Strength: 70lbs./70lbs.
- Flame resistant
- Engineered for high color brilliance and translucency.
- Moderate durability and easily cleaned

### Durability

Not as strong as metal, but our back-lit fabric is the strongest in the industry.

### Maintainence

May need an occasional cleaning, but this slick and glossy material is easy to clean.

### Design

As you can see from the photos, these awnings can be created with a unique shape.

### Lighting

This translucent material is the most effective way to illuminate your awning.

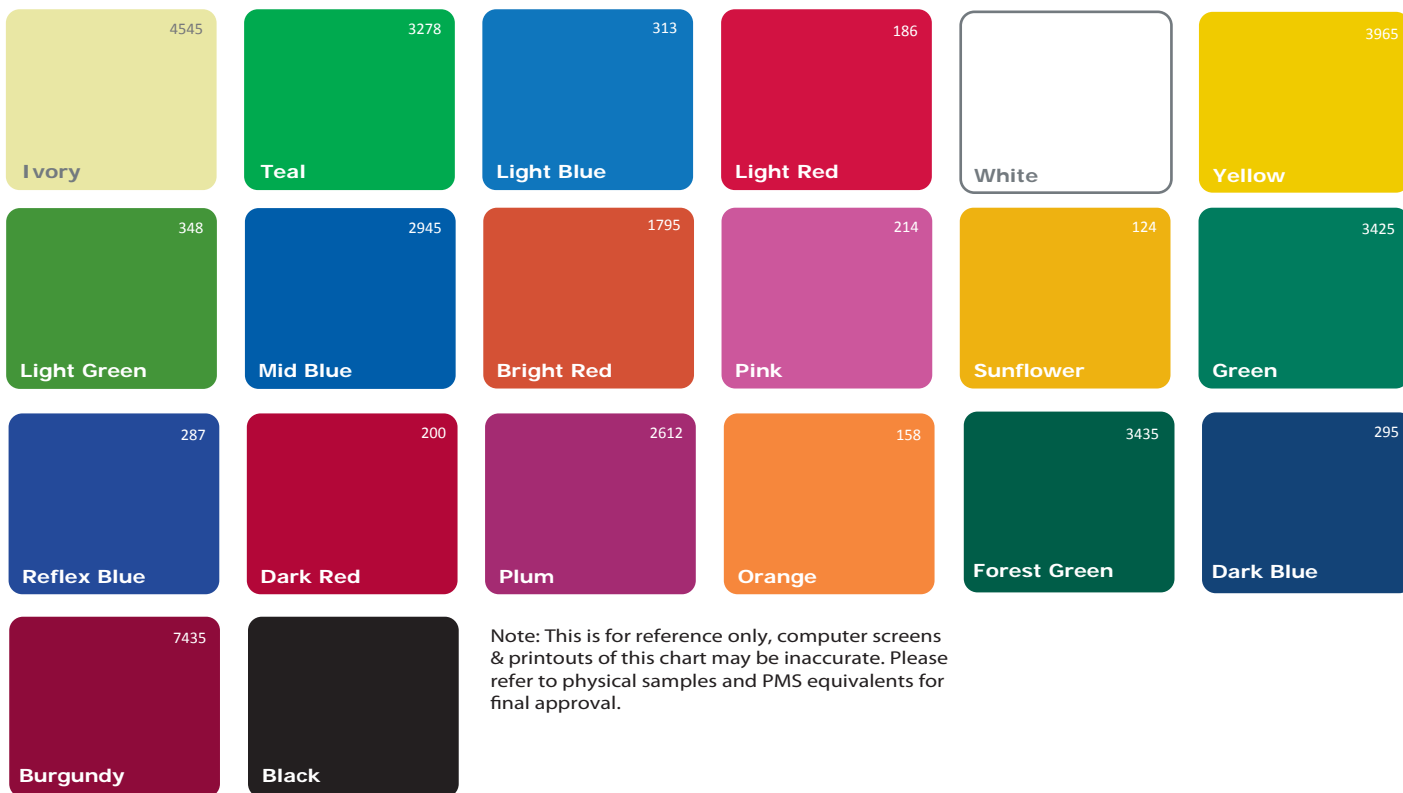

### Color

These awnings come in a variety of brilliant, eye-catching colors.

### Application

Back-lit Awnings are perfect for applications requiring night time viewing.

**TOWNSHIP  
OFFICIALS  
OF ILLINOIS**

**Top class appearance. Ultimate strength.** Weathertyte awning fabric provides you with the look of cloth material and the strength of back-lit material. This innovative fabric is actually made with a pliable plastic that has an added texture to simulate a fabric material. No other fabric can offer the same durability along with the classy appeal that weathertyte offers.

### Material Information

- simulates woven fabric
- Waterproof, not water resistant
- excellent weatherability
- 8 year limited warranty

#### Durability

The strongest material available besides metal.

#### Lighting

External lighting and floodlighting adds the finishing touch to these awnings.

#### Maintainence

The only material that gives you the look of cloth without the upkeep.

#### Color

Not the same color spectrum as other fabrics, but a good basic selection.

#### Design

Along with elegance and class comes unique design possibilities.

#### Application

Perfect for applications that require a traditional look, without sacrificing strength.

**Metal Awnings are our most popular, appealing, and long-lasting awnings available.** They provide an industrial yet classy look that is guaranteed to pass the test of time. Each metal awning is custom built to match your buildings decor and ensure structural integrity with its mounting surface. Metal Awnings come in a variety of colors and finishes to fit your needs. Call us today to see how our new metal awnings are clearly the smartest choice for your storefront.

## Material Information

- .050 inch thick aluminum
- Excellent resistance to abrasion, mildew, and chemicals
- Water proof
- Flame resistant
- Our most durable awning available!
- Can be refinished after years of weathering

### Durability

Metal Awnings can stand up to the harshest of weather conditions.

### Maintainence

Not an issue with this durable and refinishable material. Saves you time and money.

### Design

Metal is limited to certain shapes. It's best used for traditional and professional style awnings.

### Lighting

While not internally illuminated, metal awnings are perfect for hiding flood lighting.

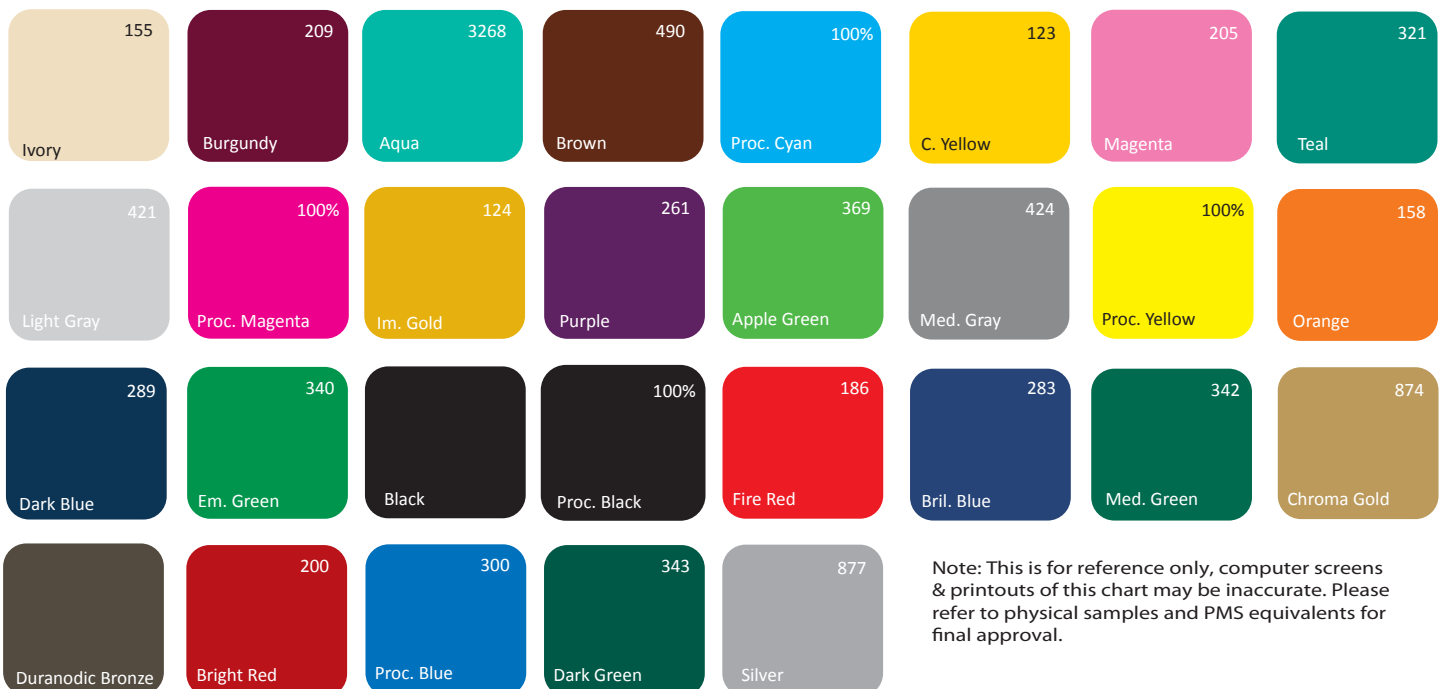

### Color

Our aluminum is available in a variety of colors and finishes, including brushed metals!

### Application

Metal awnings are perfect for all applications that do not require internal illumination.
