

Dim the lights and entertain your guests under the glow of the neon

The Ace Sign Co. Museum includes over 85 historic signs from Springfield and Route 66. The museum features a number of notable signs including a 12' tall 1953 Neon Pepsi Bottle Cap, a sign that once identified the Train Depot where Lincoln gave his farewell speech, and a number of other vintage signs originating from memorable dining establishments & vintage brewing companies. The wooden barreled ceilings bring a modern feel to the space and the open floor plan allows for a flexible event layout.

Large On-Street Signage to Identify your Event*

Attendees will have no trouble finding your venue thanks to the incredible high resolution primary sign located outside the Ace Sign Co. facility. The event message and any associated welcome message can be displayed on the sign's 7' x 11' digital display, and/or on the new Video Wall in the Main Lobby.
