

A unique Springfield and Rt. 66 blast from the past.

The Route 66 Sign Museum at Ace Sign Co. has a collection that is constantly growing and transforming as we strive to maintain some of the most memorable and iconic signs in the area.

Step off the beaten path and under the vibrant, warm glow of mid-century Americana. Located in Springfield, Illinois, our museum brings the history of the Mother Road back to life through a growing collection of over 85 historic, beautifully restored signs.

Housed under the classic wood-barreled ceilings of a 1952 Sears warehouse—right alongside our active, state-of-the-art modern sign manufacturing facility—you'll experience a unique bridge between timeless craftsmanship and living history.

By preserving these landmarks, we ensure the stories of long-gone local staples continue to shine. Every neon tube and weathered panel has a story to tell; come find a piece of your own past and make new memories under the neon glow.
